

SPEAKER ONE-SHEET

Kayleigh Rose Evans

Senior Practice Development Lead, Social Worker and Speaker

Kayleigh is a registered social worker, Senior Practice Development Lead and one of UK social work's most recognisable online educators. Her YouTube channel is used by practitioners, teams, ASYE programmes and universities across the UK and internationally, and her work spans practice education, workforce development, practitioner wellbeing and research into social media in social work.

She speaks with warmth, energy and practical honesty - sessions built on real practice, not theory alone - and every talk links to free follow-up resources on her Practice Learning Hub, so the learning continues after the event.

Speaking topics

- Thriving Under Pressure in Social Work - workload, resilience and reflective practice
- Seeing What Is Not Immediately Visible - strengths-based views of people, places and communities
- Mental Capacity Assessment in Practice - role-play based reflective workshops
- Better Recording and Reflective Case Notes - clarity, voice and defensible judgement
- Practical Adult Safeguarding - curiosity, confidence and making safeguarding personal
- Building Confidence in Early Career Social Work - ASYE, students and NQSWs
- Professional Identity and Social Media - digital professionalism and integrity online

Formats

Conference keynotes | breakout sessions | webinars | team development workshops | ASYE and university sessions | lunch-and-learns | panels. In person or virtual, tailored to your audience. A small number of engagements are taken each year alongside Kayleigh's main professional role.

Credibility

- YouTube educator with a national practitioner audience - videos used informally for training across UK local authorities
- Featured on Social Work England's professional standards podcast (Standard 5: integrity)
- Speaker at Community Care Live and sector webinars on thriving in practice
- Creator of the free Practice Learning Hub - structured CPD resources, session plans and facilitator guides used by teams and universities
